## **INSTRUCTIONS FOR ATTACHED DRAWINGS**

Submit a copy of the survey of your lot with a scaled sketch of proposed change(s). The survey is a plot plan view of your lot showing property lines (including easements), main and side streets, and an outline of your home. You received a survey of your property when you closed on your home.

Locate, **with dimensions**, your proposed improvement. (Distinguish proposed improvements from existing structures.)

If you are building or locating an accessory building, greenhouse, etc. indicate the exact distance from the property lines. Be sure to check Deed Restrictions and Architectural Guidelines for compliance.

If you are proposing a room addition, patio, or any other architectural addition or change, the Committee will need an elevation and side view. Be sure to check Deed Restrictions and Architectural Guidelines for compliance.

Indicate type and color of material to be used. Your choice should be in harmony with the existing materials.

Show all pertinent dimensions, height, length, width, and slope of roof and location of windows and doors. Point out any important features.

If improvements will be placed on a concrete foundation or slab, indicate size (height and area dimensions in addition to improvement) on the survey.

Feel free to submit sample materials, photographs, sales literature, etc., which may help the Committee in making an evaluation.

Read your relevant deed restrictions for guidance.

Please submit complete drawings to the best of your ability. Inadequate drawings will only delay your application.

PLEASE ALLOW THE ASSOCIATION THIRTY (30) DAYS TO REVIEW AND RESPOND TO YOUR REQUEST.
